

Event Programme

CIA Health Safety and Environment Conference
 1 February 2018 - Hilton Leeds City Hotel,
 Neville Street, Leeds, LS1 4BX

Who should attend?

The conference is primarily aimed at site leaders and health, safety and environment professionals. The event will present informative updates on all Responsible Care areas – including safety, environment and security – and with a main focus this year on health, the event will be particularly useful to people with a responsibility in these areas.

Beyond this core focus, the conference will very much welcome and be of interest to process industry professionals and service providers who have a keen interest in all aspects of safety health & environment issues.

Why attend?

CIA's Annual Safety, Health & Environment Conference will present invaluable information for chemical, pharmaceutical and related businesses – updating on safety, environment & sustainability, and security policies and best practices. Beyond this, the main focus of the conference this year is Health – an increasingly important issue across industry with the realisation of the impact on people and business from ill health, including mental health, at work.

HSE will outline its current strategies and campaigns, designed to work in partnership with industry on improving health at work. CIA will explain the development of our new publications and initiatives in various aspects of health promotion, advice and leadership. There will be presentations from NHS Health Scotland, health service provider Medigold Health, and the winner of CIA's Health Award, DSM Nutritional Products Ltd.

Your business needs to attend this key annual safety, health and environment conference, to get the up-to-date information you need to manage these aspects in your company and to learn the latest developments and best practice in occupational and mental health in our sector.
