

**The EI Humber Branch is delighted to invite you to our upcoming event:**

**Siemens Wind Turbine Technical Presentation**

**Date:** Thursday 28  
March 2019

**Times:** 18:00-20:00

**Venue:** CATCH Ltd.  
Redwood Park  
Estate,  
Stallingborough,  
Grimsby  
DN41 8TH

We all know when the wind blows and the blades turn we get electricity out of a wind turbine, but is it really that simple?

The Humber Branch are hosting an evening with a team of experts from Siemens Gamesa Renewable Energy Limited to explain in detail the technical workings of a wind turbine.

You will have a chance to ask any questions you have relating to this subject face to face with the relevant experts in their field.

We hope you will be able to join us and look forward to seeing you there.

**To register, visit**
